Wellesley College celebrates the differences among its students while cultivating each student's individualism. By displaying flags at Commencement that represent the citizenship or, in some cases, dual citizenships of the students in the Class of 2022, we are proudly acknowledging our diversity and expressing our continued commitment to a global learning community.

The audience will remain seated until the academic procession has withdrawn.

LAND ACKNOWLEDGMENT

We acknowledge that Wellesley College is built on ancestral and traditional land of the Massachusetts people. We also recognize that the United States' removal, termination, and assimilation policies and practices resulted in the forced settlement of Indigenous lands and the attempted erasure of Indigenous cultures and languages. We further acknowledge the oppression, injustices, and discrimination that Indigenous people have endured and that there is much work to be done on the important journey to reconciliation. We commit to strengthen our understanding of the history and contemporary lives of Indigenous peoples and to steward this land.

We further recognize the many Indigenous people living here today—including the Massachusetts, Wampanoag, and Nipmuc nations—who have rich ancestral histories in Wellesley and its surrounding communities. Today, their descendants remind us that they are still here, where they maintain a vital and visible presence. We honor and respect the enduring relationship between these peoples and this land, as well as the strength of Indigenous culture and knowledge, the continued existence of tribal sovereignty, and the principle of tribal self-determination.

America the Beautiful

Led by Genevieve Catherine Welch '22

III.

O beautiful for heroes proved
In liberating strife,
Who more than self their country loved
And mercy more than life!
America! America!
May God thy gold refine,
Till all success be nobleness,
And every gain divine!

I.

O beautiful for spacious skies,
For amber waves of grain,
For purple mountain majesties
Above the fruited plain!
America! America!
God shed His grace on thee
And crown thy good with brotherhood
From sea to shining sea!

(Please be seated.)

“America the Beautiful” was written by Katharine Lee Bates, Wellesley class of 1880 and faculty member from 1885 to 1895. The song has been a feature of Wellesley’s commencement exercises since 1942.

Benediction

Jacqueline Marquez

THE ANNA AND SAMUEL PINANSKI PRIZE FOR EXCELLENCE IN TEACHING

The Pinanski Teaching Prize is awarded annually to members of the Wellesley College faculty to honor fine teaching. The Prize may be awarded to as many as three members of the faculty each year, preferably one in each of the College's three academic areas: humanities, social sciences, and natural sciences. The Prize recognizes a particular strength, some style or method or course, or some other describable event that has been especially successful. The community does not know the names of the recipients until they are announced at Commencement.

2021 PINANSKI TEACHING PRIZE RECIPIENTS

Rebecca Belisle
Assistant Professor of Physics

Selwyn R. Cudjoe
Professor of Africana Studies

Alice Friedman
Grace Slack McNeil Professor of American Art; Professor of Art

ACADEMIC REGALIA

The Commencement Procession is one of the few remaining occasions for which the faculty of American colleges and universities still wear formal regalia. Participants in Wellesley's Commencement Procession this morning reflect the colors, chevrons, velvets, and wools of diverse degrees earned here and abroad.

Perhaps the most readily identified of American regalia is the crimson robe bedecked with three black velvet stripes on the sleeve, denoting the doctoral degree of Harvard University. Although most American universities observe the traditional black robe, distinguishing among levels of education by the cut of the robe and the colors on the hood trim, Harvard is one of a number of institutions permitting colored robes (others include Yale, Brown, Boston, and Johns Hopkins universities).

Those in the audience today will observe, among others, a burgundy robe with blue satin panels and a hood, which signifies Southampton University. Another colorful robe, this time bright red with royal blue sleeves, will be seen on a doctor of political science from Oxford University. The hood, also red, identifies the university, while the blue silk interior denotes the academic field. The wearer of this robe has lightly suggested that rather than bearing any medieval significance, the red of the robe might be the result of some London tailor's having been in possession of a surplus yardage of red wool. The master of philosophy robe from Oxford University, known as the gimp gown, has black lace embroidery along the sleeves and a blue and white hood.

Most gowns reflect degrees earned in the United States and are prescribed by the American Council of Education; the present form was adopted in 1932 and revised in 1959.

According to this form, observed by most members of the Wellesley College faculty as degree recipients from American universities, the bachelor's gown is plain with long, pointed sleeves. The master's gown is slightly fuller in cut and has long, oblong sleeves open at the wrist with an arc cut in the front. The doctor's gown is fuller still, with bell-shaped sleeves. It is faced down the front with black velvet and has three bars of black velvet on the sleeve, although the velvet and bars may be in the color representing the bearer's academic field, as in the British system.

Hoods are the most distinctive part of the American academic dress. The exterior of the hood is black; its length is three feet for the bachelor's degree, three and one-half feet for the master's degree, and four feet for the doctor's degree. Hoods are lined with the official colors of the college or university conferring the degree, and the trimming is velvet, with the color reflecting the bearer's academic field.

For all academic purposes, including trimming of the doctor's gown and edging of hoods, the colors indicating the Fields of Learning are: Art, Letters, Humanities—white; Economics—copper; Education—light blue; Fine Arts—brown; Music—pink; Philosophy—dark blue; Physical Education—sage green; Science—golden yellow; Theology—scarlet.
